

Dispatch & Bidding

Compatible With Ontario Large Energy Users & Power Generators

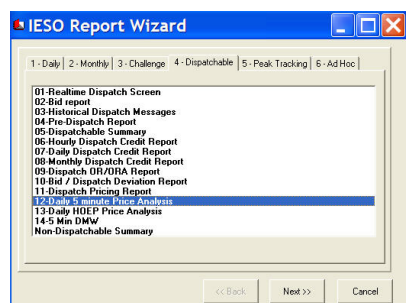

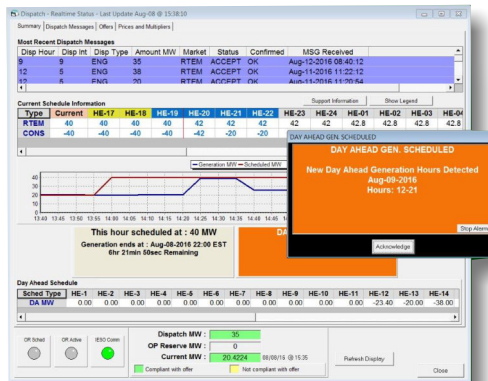

Ontario Dispatch & Bidding Module

IESO market participants that operate as dispatchable loads and generators can benefit by managing the process of bidding and operating under various dispatch parameters with the Dispatch & Bidding Module.

This module is installed with the core Energy Advisor Software and allows the user to easily bid into the Ontario electricity market, receive IESO instructions and automatically respond to IESO dispatch messages. Users can receive real time notifications and visual alerts, including schedule changes and dispatch compliance.

Simplified Bidding Process

Create a variety of templates to simplify the bidding process and save time. Submit bids and automatically respond to IESO messages to minimize human error and ensure bidding accuracy and status. Compliance to dispatch levels is shown on-screen and related reports can be created at any time.

Dispatch Reports

Create financial reports and calculate the economic benefits of dispatch operations. Add our bill verification module and you can also verify IESO electricity bills that include dispatch information and financial data.

Many challenges face Ontario's large power users & generators and our Energy Advisor Software can help Ontario's IESO Market Participants minimize electricity costs, so they can operate as competitively and profitably as possible.

Automatic Responses

The Dispatch & Bidding module allows the participant to automatically respond to IESO dispatch instructions according to configured rules.

Easy Bidding Templates

Create bidding templates that simplify the bidding process. Save time and minimize bidding errors.

Customizable Solution

We work with you to customize our dispatch module to meet your unique needs.

Reports Included

- Realtime dispatch display
- Bid reports
- Historical dispatch message log
- Pre-dispatch report
- Hourly, daily, monthly dispatch credits
- Dispatch deviation report
- Dispatch pricing report
- Daily 5 minute and HOEP price analysis

The solution chosen by leading Ontario Industry & Power Generators!
